Customer Reviews

This is the worst coin book I have ever purchased. It is totally useless for looking up any coin for its specifics and worth. I don't know exactly what this was written for. If I could get my money back, I would in a minute!

Didn't like. Way too many "filler pages" such as page after page of "International Coin Mints", "International Associations", "International Numismatic Organizations", etc... and WAY TOO Many pages of useless information (for me) in the Canada section. But, numerous countries I needed info on, and items such as *Olympic coins are left completely out of this book (*even from some of the countries that Are actually included in the book). Very disappointed and a waste of money for what

I expected, and wanted info. on. Wish I hadn't bought it.

Information in book is fine. I am not happy with the quality of the pictures of the coins. Many were hard to distinguish. I will probably not buy the next edition due to this fact.

coin pictures were terrible and could not distinguish country and or value not at all useful can not use it all
