Customer Reviews

The instructions are easy to follow I have made the pineapple lace Shaw twice in 4 days

Easy reading and I will have a great time trying all of these patterns along with different types of yarn.

I'm always hesitant to review crochet books if I haven't had a chance to complete at least one project. I purchased the Kindle version and as I last reviewed it I made sure I bookmarked all the photographs. The pictures are very nice. I like getting books on my Kindle but I miss being able to flip through the pages. The projects met my desire to have some basic shawl patterns.

Good illustration, clear instructions, simple patterns. I like it a lot: served my needs.

I'm writing this review before making any of the projects. I only just got the book. But in looking over a couple of the patterns, I have already found at least one pattern that doesn't seem to make sense. As all crocheters know, sometimes you need to have the hook and yarn in your hand for the pattern to give so I don't want to be so negative. It may all work out in the end.

Amazing patterns! Love all of them!

Wonderful group of patterns

fantastic patterns for very pretty items, very easy to understand with the basic knowledge of crochet abbreviations
