Customer Reviews

As a student new to Flash I am thrilled to find a book that is current and so easily digested. I am a mature adult returning to school and at times my long term memory fails me. The Flash Professional Book is just wonderful. Easy to read and refer too! Wonderful layout! I love the tips and trouble shooting placed in chapters. Extremely helpful! I will be looking for other books by Barbara Waxer and CENGAGE Learning Course Technology. This book proved to me that I am not nuts! It is actually possible for authors to write a text book of instructions for Adobe programs that make sense from beginning of instruction to the end. I only wish that the college I am attending used her products for our text books. Thank you Ms. Waxer! Thank you for placing everything in terms that an average person can understand!
