Flower Power: Lessons From The Los Angeles School Of Flower Design

Synopsis

Flower Power Lessons from the Los Angeles School of Flower Design is a comprehensive look at floral designing with a bit of West Coast infusion. Michael Gaffney has incorporated his best and fastest techniques for producing professional looking floral design. Michael is Director of American School of Flower Design with locations around the country. In Flower Power he brings some of his best secret, tips and techniques right to your home, with over 300 photographs showing easy to follow design techniques. He puts the power in the flowers so you can create great beautiful designs effortlessly. It's his follow up to his first book Design Star.

Customer Reviews

Flower Power is an amazing book. I learned how to create so many professional floral designs and I have no experience. Michael Gaffney's way of teaching is so easy to understand and his story is a great read. The book contains so many simple tips for anyone to create a beautiful floral arrangement. Michael also reveals some of his secrets on floral design which he used on movie

sets and for teaching celebrities! The book also makes a great coffee table book with plenty of beautiful pictures of floral arrangements and landscapes. Highly recommended for any one who is into DIY. His other book, Design Star, is equally as great!

If you want a book with a hundred pictures of men in business suits standing around awkwardly holding bouquets of flowers, then this is the book for you. Otherwise, skip it. There are only a few examples of floral design in here, and even less bits of useful advice. Just go look Gaffney up on YouTube and learn from him there, you might actually learn something there, as opposed to this book.

Beautiful illustrations. Would have liked more dialog and instructions.
