Customer Reviews

First of all--really great writing. This book has great instructions for real life--you won't find the instructions void of gravity or mess-making that are so often found on places such as Pinterest. Not everyone can just wave their hands and expect for their craft to come out perfectly on the first try; for some, serious step-by-steps are required! This has just that: a real approach for real people to bring something beautiful into their homes. Second--the photographs are incredible. I'm keeping this book on my coffee table! Buy this book. You will not regret it.

Nice quality, beautiful photography, and easy to follow steps to make your own wreaths. Several examples shown step by step. 5 Stars!
