I would have to say that ever since the invention of the internet, the so called Guide Books were a thing of the past, that was until I came across this guide book by Neal Giordano. Although I am not a collector of Hot Wheels, my best friend is, and my wife and I wanted to surprise him with a Hot Wheels guide that would help him with his collection. I searched all over the internet for the right one, one that especially dealt with what he called "Treasure Hunt Cars", and I found everything from non-treasure hunt cars to knock-off non Hot Wheels, with none of the guide books really impressing me... Until I came across Giordano's. The book only has the treasure hunts from 95-14, but the

detail that Giordano took is beyond reproach!!! I was absolutely baffled at the amount of information this book had, and to top it off it had the pictures of the cars as well. Giordano takes a very direct, passionate, and meticulous pace when writing his books, and he leaves no stone unturned. My friend loves the book and says its the best one out there!!!! If you're a collector, and you need a REAL guidebook, this is it!!!!!!!!!! I endorse this book 150%!!!!

Nice little guide with listings of what's out there and what their value is. Also has a checklist to keep track of all your Treasure Hunts!

This book had some nice info, but sure could use more photos. Bought the kindle book to see if we wanted to get the print version.

Shipping was a bit slow on this but the item arrived in good condition and is nice + contains good info

Great, current info. I also love the checklist and my own spot to write notes

This may not be the product you are searching for. This is intended for a very specific audience, rather than the more-casual collector, who would likely be more interested a different book (link below).http://www..com/gp/product/1440232091?redirect=true&ref_=cm_cr_ryp_prd_ttl_sol_14
